PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with **3+ years** of experience building scalable web applications and enterprise-grade systems. Delivered **8 production platforms across 6 business domains** (ERP, finance, e-commerce, media, education and investments). Specialises in replacing third-party customised software with fully owned, automated systems that cut recurring costs and improve performance. Strong expertise in Laravel, system architecture, REST API development, DevOps, database optimisation and infrastructure security.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Nov 2025 – Present

ORACOM GROUP | Nairobi, Kenya

Design, develop, deploy and maintain enterprise systems across the full stack: backend logic, frontend, database architecture, server management, security and performance.

- Architected and deployed **8 production platforms** – including a **6-module ERP (ODSERP)**, a financial management system, 2 e-commerce/investment platforms, a CRM, a news portal and a radio web/app system – serving **1,000+ active users**.
- Led migration from third-party customised applications to fully owned internal systems, cutting recurring software costs by **40%** and eliminating **3+ third-party vendor subscriptions**.
- Designed Role-Based Access Control (RBAC) with **10+ user roles** and multi-level approval workflows, reducing approval turnaround from **3 days to under 24 hours**.
- Built **60+ RESTful API endpoints** with Laravel and MySQL; applied indexing and query tuning that improved average response times by **35%**.
- Managed Docker-based deployments across **4 Linux servers** and **10+ domains** with SSL, reducing deployment time from **2 hours to 15 minutes**.
- Hardened servers and optimised infrastructure, achieving **99.5% uptime** across all production platforms.

Software Developer

Sep 2024 – Dec 2024

Modcom Institute of Technology | Nairobi

- Built scalable front-end and back-end systems using Flask, MySQL and Bootstrap, reducing user-reported issues by **50%**.
- Redesigned database schema architecture, boosting query speeds by **40%**.
- Implemented advanced input validation and SQL-injection prevention, reducing vulnerability risk by **90%**.
- Led code reviews and debugging sessions that lowered system errors by **30%**.
- Integrated UI/UX designs that improved the experience for **5,000+ users**.

ICT Officer

Feb 2023 – Feb 2024

Ministry of Education | Nyamira

- Trained **200+ teachers** in digital literacy, driving a **70% increase** in tech-enabled instruction across **15 schools**.
- Supported e-learning initiatives that expanded digital access for **5,000+ students**.
- Administered SharePoint/OneDrive backup and content sharing for **50+ staff** across **15 schools**.
- Built **5 Excel performance dashboards** tracking attendance and exam trends for **15 schools**, enabling data-driven decisions.
- Delivered proactive IT support and maintenance, cutting system downtime by **40%**.

IT Graduate Trainee

Apr 2021 – Aug 2021

Huduma Centre | Nyamira

- Diagnosed and repaired LANs, UPS backup systems and IT infrastructure, reducing downtime by **50%**.
- Performed routine upgrades and system maintenance, increasing service efficiency by **30%**.
- Resolved **200+ client support issues** with a **95% first-contact resolution rate**.

KEY ENTERPRISE PROJECTS

- **ODSERP** (odserp.com) – ERP with **6 modules**: Accounting, HRM, CRM, POS, Project Management and dynamic reporting dashboards.
- **Financial Management System** (erp.oracomgroup.com) – Integrated HRM, FMS and PMS with automated financial tracking and reporting.
- **ODSAITECH** (odsaitech.com) – Corporate technology solutions platform.
- **Digitally Fit News** (dftnews.com) – Dynamic news and content publishing platform.
- **Educare CRM** (educare-studyabroad.com/crm) – CRM managing **500+ student leads** for a study-abroad programme.
- **BraceFM** (www.bracefm.com) – Web and mobile app radio streaming system.
- **Meatsoko E-commerce** (shop.meatsokogroup.com) – Online store for Meatsoko Group processing **200+ orders per month**.
- **Meatsoko Investments** (investments.meatsokogroup.com) – Ecosystem-linked investment platform.
- **Talents Platform** (talents-optimized.com) – Talent discovery and management platform.
- **Sanitation Events Platform** (dev.sanibook.ke) – Event booking and management platform for the sanitation sector.

OTHER PROJECTS

- **Toi Shop (E-commerce)** – Secure shop with registration, cart, checkout and admin dashboard; processed **500+ transactions** in its first month.
- **House Price Predictor** – Linear-regression ML model in Python, deployed with Flask; achieved **85% accuracy** in validation.
- **Nyamira South Sub-County Website** – Responsive multi-page government services site serving **10,000+ residents**.
- **Smart Office Dashboard** – Flask/MySQL admin dashboard managing **8 departments**, meeting calendars and notifications with full CRUD.
- **School Website & CBC Portal** – Admissions, fees, results and CBC progress portal with SMS updates to **300+ parents**.

TECHNICAL SKILLS

Backend: PHP (Laravel), Python (Flask), REST APIs, MVC Architecture
Frontend: HTML5, CSS3, JavaScript, Bootstrap, Responsive Design
Database: MySQL, Query Optimisation, Indexing, Schema Design
DevOps & Infrastructure: Docker, Linux, cPanel, Git, SSL Configuration, CI/CD Fundamentals
Security: RBAC, Authentication & Authorisation, SQL-Injection Prevention, Input Validation
Tools: Postman, VS Code, Composer
Soft Skills: Analytical Problem-Solving, Technical Documentation, Team Leadership, Communication, Continuous Learning

EDUCATION & CERTIFICATIONS

BSc. Mathematics and Computer Science	Sep 2017 – Sep 2022
Taita Taveta University Key areas: Software Engineering, Web Development, Database Systems, Cloud Computing, Data Analytics	
Certificate in Software Development	Sep 2024 – Dec 2024
Modcom Institute of Technology	
Computer Hardware Basics	2024
Cisco Networking Academy
