PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience building scalable web applications and enterprise-grade systems. Specialized in architecting and deploying internally owned digital platforms that transition organizations from third-party customized solutions to fully automated, self-managed systems — significantly reducing operational costs and improving performance. Strong expertise in Laravel, system architecture, API development, DevOps, database optimization, and infrastructure security.

EXPERIENCE

Full Stack Developer | ORACOM GROUP | Nairobi, Kenya

November 2025 – Present

Design, develop, deploy, and maintain scalable web applications and enterprise systems across the full technology stack. Responsible for backend logic, frontend implementation, database architecture, server management, system security, and performance optimization to support business operations and digital growth.

Key Achievements & Impact:

- Architected and deployed enterprise platforms including:
 - **ODSERP** – ERP system (Accounting, HRM, CRM, POS, Project Management, Dynamic Reporting Dashboards) – <https://odserp.com>
 - **Financial Management System (FMS)** – <https://fms.digitallyfit.top/>
 - **ODSAITECH** – Corporate technology platform – <https://odsaitech.com>
 - **Digitally Fit News** – Content publishing system – <https://digitallyfitnews.com>
- Led transition from third-party customized applications to fully owned internal systems, reducing recurring software costs and increasing scalability.
- Designed and implemented secure Role-Based Access Control (RBAC) and multi-level approval workflows.
- Built RESTful APIs using Laravel and MySQL with optimized database indexing and performance tuning.
- Managed Docker-based deployments, Linux servers, domain routing, and SSL configurations.

- Improved application performance, uptime stability, and system security through server optimization and hardening.

Software Developer | Modcom Institute | Nairobi

Sep 2024 - Dec 2024

- Built scalable front-end and back-end systems using Flask, MySQL, and Bootstrap, reducing user-reported issues by 50%.
- Improved database efficiency by redesigning schema architecture, boosting query speeds by 40%.
- Reduced vulnerability risks by 90% through implementation of advanced input validation and SQL injection prevention.
- Conducted comprehensive code reviews and debugging sessions, lowering system errors by 30%.
- Delivered seamless integration of UI/UX designs to enhance the customer experience for 5,000+ users.

ICT Officer | Ministry of Education | Nyamira

Feb 2023 – Feb 2024

- Trained 200+ teachers in digital literacy, leading to a 70% increase in tech-enabled instruction across 15 schools.
- Supported e-learning initiatives, enhancing digital access for over 5,000 students.
- Supported SharePoint/OneDrive data backup and content sharing.
- Created Excel-based dashboards for performance tracking, enabling data-driven decisions on attendance and exam trends.
- Delivered proactive IT support and system maintenance, cutting downtime by 40%.

IT Graduate Trainee | Huduma Centre | Nyamira

Apr 2021 - Aug 2021

- Executed advanced diagnostics and repairs on LANs, UPS backup systems, and IT infrastructure, achieving a 50% reduction in downtime and enhancing overall service reliability.
- Performed routine upgrades and system maintenance, increasing service efficiency by 30%. □ Resolved over 200 client support issues with a 95% first-contact resolution rate.

KEY ENTERPRISE PROJECTS

- **ODSERP** – Enterprise Resource Planning System (Accounting, HRM, CRM, POS, Project Management, Dynamic Reporting Dashboards)
<https://odserp.com>
- **Financial Management System (FMS)** – Financial tracking and reporting automation
<https://fms.digitallyfit.top/>

- **ODSAITECH** – Corporate technology solutions platform
<https://odsaitech.com>
- **Digitally Fit News** – Dynamic news & publishing platform
<https://digitallyfitnews.com>

OTHER PROJECTS

-
- **Toi Shop (E-commerce System)** – Designed a secure online shopping platform with user registration, shopping cart functionality, secure checkout, and an admin dashboard. Processed over 500 transactions in the first month.
 - **House Price Predictor** – Developed a machine learning model using Python (Linear Regression) to predict house prices based on area size. Achieved 85% accuracy during model validation and deployed using Flask.
 - **Nyamira South Sub-County Website** – Created a responsive, multi-page website to serve 10,000+ residents with information on government services. Included sections like departments, institutions, FAQs, and contact forms.
 - **Smart Office Dashboard** – Developed a dynamic web dashboard using Flask and MySQL to manage departmental listings, meeting calendars, and system notifications with full CRUD operations accessible only to admins.
 - **School Website and CBC Portal** – Created a school portal for student admissions, fee tracking, exam results, newsletters, and CBC learner progress. Enabled parents to receive updates via SMS and view documents online.

EDUCATION

Modcom Institute of Technology

Certificate in Software Development | Sep 2024 – Dec 2024

Taita Taveta University

BSc. Mathematics and Computer Science | Sep 2017 – Sep 2022

Key Areas: Software Engineering, Web Development, Database Systems, Cloud Computing, Data Analytics

TECHNICAL SKILLS

-
- **Backend:** PHP (Laravel), Python (Flask), REST APIs, MVC Architecture
 - **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, Responsive Design
 - **Database:** MySQL, Query Optimization, Indexing, Schema Design

DevOps & Infrastructure: Docker, Linux, cPanel, Git, SSL Configuration, CI/CD Fundamentals
Security: RBAC, Authentication & Authorization, SQL Injection Prevention, Input Validation
Tools: Postman, VS Code, Composer

CERTIFICATES

- Software Development Certificate – Modcom Institute (2024)
- Computer Hardware Basics – Cisco Networking Academy (2024)
- BSc. Mathematics and Computer Science – Taita Taveta University (2022)

SOFT SKILLS

- Analytical Thinking & Problem-Solving
- Technical Writing & Documentation
- Team Collaboration & Leadership
- Presentation & Communication
- Adaptability & Continuous Learning
